=> Show in Vercel for w6

The screenshot displays a developer's environment with two browser windows and their respective developer tools.

Left Browser Tab: Shows the code for `megaMenu_14.html`. The code includes several breakpoints (indicated by blue brackets) placed on various lines of the `mega-menu` class definition and its nested components. The developer tools also show the current state of the application, including the `PROBLEMS` and `OUTPUT` panes.

Right Browser Tab: Shows the resulting web page with the menu expanded. The developer tools in this tab show the DOM structure with the same breakpoints highlighted, allowing the developer to step through the code as it runs in the browser.

to replace index.html in the home directory

W14-P1: Setup mega menu

W14-P3: Add tictactoe multipage

=> Show in local

The screenshot shows a developer's workspace with two main panes. The left pane is an IDE (VS Code) displaying the file structure and content of a project named '113-SWEB-DEMO-14'. It includes files like 'all.min.css', 'classdemo_14.css', 'megaMenu_14.css', 'tictactoe_14.css', and 'tictactoe_14.css.map'. The right pane is a web browser window showing a live preview of the project at '127.0.0.1:5500/tictactoe_14.html'. The browser title is 'Itlin_14' and the page title is 'Tic Tac Toe'. The browser's developer tools are open, specifically the Elements tab, which shows the DOM structure of the Tic Tac Toe game board. The DOM includes elements like 'header', 'h1', 'ul', 'li', and 'a' tags, with some classes like 'main-menu', 'li.menu-item', and 'div.sub-menu-wrapper' visible.

=> Show in Vercel

The screenshot shows the development environment for a web application. On the left, the VS Code interface displays the file structure of '113-SWEB-DEMO-14' with files like 'w14_md', 'w14_p3-1.png', and 'tictactoe_14.html'. The 'tictactoe_14.html' file is open in the editor, showing code for a multipage site with navigation menus. The 'TERMINAL' tab shows command-line activity, including a 'git commit' message and a 'git push' command. On the right, a browser window shows the live preview of the website at 'https://113-sweb-demo-14.vercel.app/tictactoe_14.html'. The browser's developer tools are open, specifically the 'Elements' tab, which shows the rendered HTML structure of the page.

W14-P4: git logs ofr W14

The screenshot shows the GitHub repository '113-sweb-demo-14'. The 'Commits' page is displayed, showing a list of recent commits. The commits are grouped by date: 'Commits on Dec 12, 2024' and 'Commits on Dec 5, 2024'. Each commit includes a summary, the author (zero2005x), the commit hash, and a copy/paste icon. The commits are related to the project's development, such as adding a multipage feature, setting up a mega menu, and making specific files work using SCSS.

Date	Commit Summary	Author	Commit Hash
Dec 12, 2024	W14-P3: Add tictactoe multipage	zero2005x	46a689c
Dec 12, 2024	W14-P2: Show class demo of w2, w3, w6 in both local and Vercel	zero2005x	d74f173
Dec 12, 2024	W14-P1: Setup mega menu to replace index.html in the home directory	zero2005x	0625e8d
Dec 5, 2024	W13-P3: Make tictactoe_14.html work using tictactoe_14.scss	zero2005x	0113b7d
Dec 5, 2024	W13-P2: Make tiles_xx.html work using tiles_xx.scss	zero2005x	d42b84f
Dec 5, 2024	W13-P1: Create tiles_xx.html and tictactoe_xx.html with the same navbar as in index.html
